## PANCREAS SPRING MEETING GOETTINGEN

11–12 MAY 2017

UNIVERSITÄTSMEDIZIN GÖTTINGEN 

Call for Abstracts

[www.pancreas-meeting.de](http://www.pancreas-meeting.de)

Dear colleagues,

We are pleased to announce the first Göttingen Pancreatic Cancer Spring Meeting „Pancreatic Cancer Today and Tomorrow“. The meeting will begin on Thursday, May 11, 2017, and end after lunch on Friday, May 12.

This meeting will be a new opportunity for international clinicians and scientists focused on pancreatic cancer research to review advances in the treatment and pathophysiology of this disease, and present and discuss their own research.

Six main sessions will be organised to cover a wide topical range focused on recent discoveries in the fields of medical therapy, molecular imaging and innovative surgery, microenvironment and stem cells, epigenetics, immunology, and pre-clinical translational studies. Keynote lectures and talks will be given by internationally renowned leaders in the field accompanied by extensive discussion in order to enhance the impact of the meeting.

Moreover, poster presentations from selected abstracts will provide a forum for young scientists to showcase their latest results, and sessions will be chaired by leaders in the field.

Besides the scientific programme, this meeting is aimed at fostering international collaboration and opportunities to network in the field of pancreatic cancer.

We look forward to welcoming you in Göttingen in May 2017.

Sincerely,  
Volker Ellenrieder

Michael Ghadimi
